

CARTON SEALING TAPE

PROGRAM OVERVIEW

This **D-I-Y Trial Pack** is designed to give you the opportunity to try a range of possible solutions to some of the more basic pressure-sensitive tape applications, quickly and easily. Enclosed are 6 rolls of tape, each measuring 48mm x 110 yds. Each roll has a label in the core containing product identification information. We have listed below some of the significant characteristics for each product to help you determine why one product may be more suitable for your particular application. On the back of this page you will find some helpful suggestions on using this **D-I-Y Trial Pack** to find the best tape for your applications.

PRODUCT DESCRIPTIONS AND SPECIFICATIONS

HP100
Clear Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 72mm x 100m (3" x 110 yards)
 72mm x 914m (3" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Clear, Tan
 Description: A light duty packaging tape that is ideal for sealing cartons with minimal exposure to handling, shipping and load stress.

HP200
Clear Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 72mm x 100m (3" x 110 yards)
 72mm x 914m (3" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Clear, Tan
 Description: A medium duty packaging tape for use in normal manufacturing and shipping applications.

HP200C
Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Black, Blue, Green, Orange, Red, White and Yellow
 Description: A medium duty packaging tape available in 7 transparent colors.

HP300
Clear Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 72mm x 100m (3" x 110 yards)
 72mm x 914m (3" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Clear, Tan
 Description: A medium duty packaging tape that is ideal for sealing cartons with minimal exposure to handling, shipping and load stress.

HP232
Clear Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 72mm x 100m (3" x 110 yards)
 72mm x 914m (3" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Clear, Tan
 Description: A medium duty packaging tape designed for manual or automated applications in cold temperature environments such as food processing, dairy facilities and unheated warehouses in cold climates.

AP201
Clear Carton Sealing Tape

Sample Size: 48mm x 100m (2" x 110 yards)
 Std Sizes: 48mm x 100m (2" x 110 yards)
 48mm x 914m (2" x 1000 yards)
 72mm x 100m (3" x 110 yards)
 72mm x 914m (3" x 1000 yards)
 Manufacturer: Shurtape
 Colors: Clear, Tan
 Description: A medium duty packaging tape designed for application and continuous service in a wider range of temperatures than standard carton sealing tapes.

Carton Sealing Tape Trial Pack Cost: \$9.99

The full cost of this **D-I-Y Trial Pack** will be applied to the purchase of a full carton of any tape product. We accept Visa, Mastercard & American Express

CARTON SEALING TAPE

PROGRAM INSTRUCTIONS

1. Inspect the rolls and make sure that the product information on the tape core labels matches the products described on the opposite side of this page. If you did not receive the correct tapes, please contact our customer service department immediately for a no-charge replacement.
2. Review the product descriptions and specifications for the tapes and identify the performance characteristics that appear to be the best fit for your particular application.
3. When you have selected the first product for testing, apply the tape using methods and procedures that are as close to your actual production environment as possible. Try at least three of the enclosed products without exhausting all of the tape on any of the individual rolls. This will enable you to judge a range of tape performance and provide you with leftover yardage for use in additional test environments, if necessary.
4. Once you have selected the tape that works best, contact us for a competitive price quote by phone, email or using the "Request a Quote" page on our website. When you identify yourself as a **D-I-Y Trial Pack** customer, you will be eligible to receive credit for the full cost of the **D-I-Y Trial Pack** toward your first purchase of tape.
5. The tapes included in this **D-I-Y Trial Pack** are the most popular out of dozens of the tapes available in this category. If your tests reveal that none of the enclosed tapes work satisfactorily in your operation, we have experienced application specialists who can help you find the best solution. Call our toll free number and a customer service representative will help you get the answers you need.

CARTON SEALING TAPE - NOTES

COMPARATIVE DATA:	HP100	HP200	HP300	HP200C	HP232	AP201
Tensil Strength	21	27	30	27	27	24
Adhesion Level	42	44	47	44	30	21
Thickness (Mils)	1.6	1.9	2.2	1.9	1.9	1.9
Elongation	120%	130%	142%	130%	140%	125%
Application Temperature (Degrees)	35 to 110	35 to 110	35 to 110	35 to 110	20 to 75	20 to 110
Service Temperature (Degrees)	20 to 150	20 to 150	20 to 150	20 to 150	-20 to 100	-20 to 180

1. Adhesion levels noted above are measured to stainless steel. This is an industry standard test for comparing relative adhesive performance. Results on corrugated surfaces may vary.
2. Wipe the tape down as you apply to the surface using a dispenser or hand pressure. Be careful not to stretch the tape as this will not improve the closure.

With nearly six decades of service in the industry, the Englewood Company is a major supplier and converter of pressure-sensitive tapes, labels and packaging systems. We have a team of professionals who can evaluate the specific requirements of any application and recommend the appropriate solution at a competitive price.
